I'll call in at 3pm also. I will not have email access from home today (in the office right now but heading home in a few minutes). If the logistics for the call change (I've got the current call in #), call my cell at Ex. 6 - Personal Privacy

Talk to you later.

Dear Jim & Jim,

Hope you're safe and warm on this snowy day!

In order to keep things moving on Pend Oreille, at noon Eastern today I plan to recommend to Helen Rueda that the Region 10 proceed with the meeting/call with Ecology. Let me know if you object to this approach.

I'm planning to be on the call, and would like to promote keeping this project moving if at all possible, despite the federal government being closed here in DC today due to weather.

I'll cc you both on the email to Helen.

Best,

Sarah

P.S—I am available via email and at my alternative workspace phone: Ex. 6 - Personal Privacy
